20		(iii) are unable to speak, read, or write the English language.	(iii) are unable to speak, read, write or understand the English language.	
21			SPECIAL RULE: This definition does not preclude dual enrollments by students in adult education and postsecondary education, but does not allow use of funds provided under this Act for postsecondary educational services.	Collaboration on dual or concurrent programs is not to be interpreted as using adult education funds to provide technical or college training. This special rule clarifies that adult education funding can be used for the adult education portion only.
22				
23		(2) ADULT EDUCATION AND LITERACY ACTIVITIES- The term 'adult education and literacy activities' means activities described in section 231(b).	Retains current law	
24				
25			"(3) Career and College Pathway Services: Career and College Pathway Services are defined as integrated adult education services and postsecondary education and training content or which dually or concurrently enroll students in adult education services and postsecondary education and training that lead to industry-based certification or institutionally-granted certification, diplomas, or degrees necessary for high demand jobs."	Many states have developed dual and concurrent enrollment programs with college and technical programs, enabling adult learners to progress quickly toward certifications. This definition acknowledges and encourages and encourages the expansion of those services.

150		(i) Demonstrated improvements in literacy skill levels in reading, writing, and speaking the English language, numeracy, problem solving, English language acquisition, and other literacy skills.	(i) Measurable improvements in literacy skills in reading, writing, and speaking the English language, numeracy, English language acquisition, and other literacy skills.	
151		(ii) Placement in, retention in, or completion of, postsecondary education, training, unsubsidized employment or career advancement.	(ii) Placement in postsecondary education programs or job training programs.	Adult education programs should be held responsible for preparing adults for enrolling in postsecondary programs or obtaining unsubsidized employment but not for retention or completion of those programs. Too many other factors contribute to retention and completion.
152		(iii) Receipt of a secondary school diploma or its recognized equivalent.	(iii) Receipt of a secondary school diploma, General Educational Development credential (GED), or other State-recognized equivalent.	
153			(B) EMPLOYMENT PERFORMANCE INDICATOR - Consistent with applicable Federal and State privacy laws, an eligible agency shall identify in the State plan the following individual participant employment performance indicators:	
154			(i) Entry into employment.	
155				
156			(ii) DATA COLLECTION - The State agency responsible for maintaining and analyzing these data will assist the eligible agency in obtaining and using quarterly wage records to collect data for each of the indicators described in clause (i), consistent with applicable Federal and State privacy laws.	Due to interpretations of FERPA regulations, some state education agencies have difficulty accessing wage records. This provision would instruct the state agency responsible for those data to assist in data match access. This provision may help a few states compile data under the entered employment indicator.

178		(c) REPORT-		
179		(1) IN GENERAL- Each eligible agency that receives a grant under section 211(b) shall annually prepare and submit to the Secretary a report on the progress of the eligible agency in achieving eligible agency performance measures, including information on the levels of performance achieved by the eligible agency with respect to the core indicators of performance.	(1) IN GENERAL- Each eligible agency that receives a grant under section 211(b) shall annually prepare and submit to the Secretary, the Governor, and the State legislature a report on the progress of the eligible agency in achieving eligible agency performance measures, including the following:	
180			(A) Information on the levels of performance achieved by the eligible agency with respect to the core indicators of performance and employment performance indicators.	
181				
182		(2) INFORMATION DISSEMINATION- The Secretary--	Retains current law	
183		(A) shall make the information contained in such reports available to the general public through publication and other appropriate methods;		
184		(B) shall disseminate State-by-State comparisons of the information; and	(B) shall address the level of accuracy and quality of data and disseminate State-by-State comparisons of states with comparable data.	A number of states are prohibited by State law or State policy from using Social Security numbers to track education, training and work outcomes. Their follow-up survey data cannot be compared with States that can use SSNs to do data match. Thus data match states' results should only be used for comparison with other data match states. Likewise, States that use student follow-up surveys should only be compared to States that use that same methodology.

190			(A) work with the Secretary and a professional development organization for state directors of adult education to make available technical assistance to assist the State to develop and implement a program improvement plan for the 2 program years succeeding the program year in which the eligible agency did not meet its adjusted levels of performance; and	When a state cannot meet performance expectations, they need to have available technical assistance from experienced colleagues who can help them identify possible problems, identify promising alternatives, and pilot test and integrate those alternatives.
191			(B) revise its State plan under section 224, if necessary, to reflect the changes agreed to in the program improvement plan.	
192			(2) FURTHER ASSISTANCE- If, after the period described in paragraph (1)(A), the Secretary has made available technical assistance to the eligible agency but determines that the eligible agency did not meet its adjusted levels of performance for the core indicators of performance described in subsection (b)(2)(A), the Secretary may require the eligible agency to make further revisions to the program improvement plan described in paragraph (1) and provide additional funding needed to enable the state to make the needed program improvements. Such further revisions shall be accompanied by further technical assistance from the Secretary and a professional development organization for state directors of adult education with experience in effectively achieving performance measures.:	Some states have few resources to make significant changes in their program operations in order to improve performance. When such states are unable to make the necessary improvements with current resources, the Secretary should have available program improvement grants that would enable them to do so.

197	SEC. 213.INCENTIVE GRANTS FOR STATES			
198				
199			DELETE THIS PROVISION FROM TITLE 1 or move to Title II as follows:	
200			a) In General- From funds appropriated under section 211(a)(1), the Secretary may award grants to States for exemplary performance in carrying out programs under this title. Such awards shall be based on States exceeding the core indicators of performance established under section 212(b)(2)(A) and may be based on the performance of the State in serving populations, such as those described in section 224(b)(10), including the levels of service provided and the performance outcomes, and such other factors relating to the performance of the State under this title as the Secretary determines appropriate.	A large number of State adult education programs have met or exceeded their performance standards to qualify for incentive grants but were unable to do so because one or more of their partner agencies did not meet theirs. In other states, all three partners met or exceeded their performance measures but the incentive grant went to one of the other agencies. On the national level, the Department of Labor has made no contribution to the incentive grants while adult education has made significant contributions. It is only fair that Education control its incentive grants and apply those funds to the State adult education programs that are successful.
201			(b) Use of Funds- The funds awarded to a State under this paragraph may be used to carry out any activities authorized under this title, including demonstrations and innovative programs for hard-to-serve populations.

216		(2) shall use not more than 12.5 percent of the grant funds to carry out State leadership activities under section 223; and	(B) in paragraph (2), by striking 'not more than 12.5 percent' and inserting 'not more than 15 percent';	Prior to the implementation of WIA in 1998, adult education was required to spend a minimum of 15% of state grants to prepare and support teachers and provide other program improvement activities. In 1998, WIA incorporated performance measures, increased accountability, and added program improvement requirements while reducing funds available for professional development and program improvement initiatives that are needed to incorporate those changes. WIA reduced state leadership funds to a maximum of 12.5%--fewer dollars with greater demand for professional development. States need the resources to comply with program requirements and improve the quality of services.
217		(3) shall use not more than 5 percent of the grant funds, or \$65,000, whichever is greater, for the administrative expenses of the eligible agency.	(C) in paragraph (3), by striking '\$65,000' and inserting '\$100,000';	The base grant for small states has not been increased in over a decade. It is difficult for them to respond to the requirements of the Act with an administrative grant of \$65,000. Thus, the recommendation is to increase that threshold to \$100,000.

219		(b) MATCHING REQUIREMENT-		
220		(1) IN GENERAL- In order to receive a grant from the Secretary under section 211(b) each eligible agency shall provide, for the costs to be incurred by the eligible agency in carrying out the adult education and literacy activities for which the grant is awarded, a non-Federal contribution in an amount equal to--	2) in subsection (b)(1), by striking 'equal to' and inserting 'that is not less than'.

380				
381		(b) MAINTENANCE OF EFFORT-	Retains current law for all provisions	
382		(1) IN GENERAL-		
383		(A) DETERMINATION- An eligible agency may receive funds under this subtitle for any fiscal year if the Secretary finds that the fiscal effort per student or the aggregate expenditures of such eligible agency for adult education and literacy activities, in the second preceding fiscal year, was not less than 90 percent of the fiscal effort per student or the aggregate expenditures of such eligible agency for adult education and literacy activities, in the third preceding fiscal year.	Delete "fiscal effort per student."	The purpose of the maintenance of effort provision is to ensure that states do not withdraw their financial support for adult education and literacy activities. The "fiscal effort per student" provisions allows states to withdraw that support without any penalty and should be deleted. Applying this K-12 provision to adult education does not work. There is no enrollment requirement in adult education, hence, a state that spent \$1,000 per student for 50,000 students could meet the "fiscal effort per student" requirement by serving just one student as long as they spent \$1,000 on that student.
384		(B) PROPORTIONATE REDUCTION- Subject to paragraphs (2), (3), and (4), for any fiscal year with respect to which the Secretary determines under subparagraph (A) that the fiscal effort or the aggregate expenditures of an eligible agency for the preceding program year were less than such effort or expenditures for the second preceding program year, the Secretary--

385		(i) shall determine the percentage decreases in such effort or in such expenditures; and		
386		(ii) shall decrease the payment made under this subtitle for such program year to the agency for adult education and literacy activities by the lesser of such percentages.		
387		(2) COMPUTATION- In computing the fiscal effort and aggregate expenditures under paragraph (1), the Secretary shall exclude capital expenditures and special one-time project costs.		
388		(3) DECREASE IN FEDERAL SUPPORT- If the amount made available for adult education and literacy activities under this subtitle for a fiscal year is less than the amount made available for adult education and literacy activities under this subtitle for the preceding fiscal year, then the fiscal effort per student and the aggregate expenditures of an eligible agency required in order to avoid a reduction under paragraph (1)(B) shall be decreased by the same percentage as the percentage decrease in the amount so made available.		
389		(4) WAIVER- The Secretary may waive the requirements of this subsection for 1 fiscal year only, if the Secretary determines that a waiver would be equitable due to exceptional or uncontrollable circumstances, such as a natural disaster or an unforeseen and precipitous decline in the financial resources of the State or outlying area of the eligible agency. If the Secretary grants a waiver under the preceding sentence for a fiscal year, the level of effort required under paragraph (1) shall not be reduced in the subsequent fiscal year because of the waiver.

436				
437			Add a new (d) and re-letter. (d) RESEARCH	
438			(1) IN GENERAL – In order to provide rigorous research utilizing appropriate scientifically-based research standards as defined in Section 102(18) of the Education Sciences Reform Act of 2002, to inform the field and improve practice, the National Institute for Adult Literacy shall administer, through a research center, a program of research in adult education and family literacy.	The Institute of Education Sciences has chosen not to fund a research center in adult literacy. There is a continuing need for such research to inform the field and improve instruction. Although there is a continued emphasis on research-based instruction in adult education, there is limited research in this area. Since IES has made a decision to no longer fund a research center, we would like to see such a center funded by the National Institute for Adult Literacy.
439			(2) Funding - Such research shall be funded through contributions of \$5 million annually from the Interagency Group, equally divided.
